ABOUT US

Learning Lingos is the brainchild of American born Indian, Eshleen Jolly.

Our aim for starting the company was understanding the importance of foreign language education especially at a young age for overall development. We have courses for all age groups starting with as young as 24 months to you're never too old to learn! We believe that learning a foreign language is key to capitalizing our potential in an ever-globalizing world. Keeping that in mind our courses are designed to make the process of learning enjoyable. Our Learning Management system is easy to use and has a wealth of learning material. We have Native & certified instructors that will gently guide you to a world of new culture and language. Our aspiration is that educating students in a foreign language will become the norm across India.

OUR MISSION

Learning Lingos curriculum incorporates the five C's based on the National Foreign Language Standards of :

- Communication
- Culture
- Connections
- Comparisons
- Communities

We believe in giving students a well-rounded foundation to appreciate the language and inspire them to study further.
